

1 Color the triangle with the greatest number.

2 Count to 50. Fill in the missing numbers.

1	2			5	6	7	8		10
	12	13	14		16	17	18	19	20
21	22	23	24		26	27		29	
31		33	34	35		37	38	39	40
41	42	43	44		46		48	49	

3 Fill in 1st, 2nd, 3rd, 4th, and 5th below each candle.
The order should start with the candle that will burn out the fastest.

4 There are 10 calculators. 4 calculators are red.

$$10 - \boxed{} = \boxed{}$$

There are yellow calculators

5 How many  are there?

Tens Ones

$$\boxed{} + \boxed{} = \boxed{}$$

There are 

- 6 Look at the picture below. Pencil B is ____ in shorter than Pencil A.

- 7 Raja saved \$2,346 last year. His wife saved \$300 more. How much did they save together?

- 8 A and B have the same mass. What is the mass of B?

- 9 Which of the following is not the equivalent fraction of $\frac{1}{2}$?

(1) $\frac{7}{12}$

(2) $\frac{11}{22}$

(3) $\frac{5}{10}$

(4) $\frac{6}{12}$
